

## IAN MURPHY

[www.linkedin.com/in/ian-murphy-680548250](https://www.linkedin.com/in/ian-murphy-680548250) | 614-772-0936 | [iantmurphy1905@gmail.com](mailto:iantmurphy1905@gmail.com)

I am a Cybersecurity student seeking an internship to gain experience in a cybersecurity related field. I offer experience in Java, JavaScript, Python, Assembly and C through formal coursework. I am currently working on my CompTIA Network+ certification used by many cybersecurity professionals to show their understanding of complex networks.

### EDUCATION

Bachelor of Science in Cybersecurity  
Minor in Criminal Justice  
Western Michigan University

Expected Graduation: April 2026

Kalamazoo, Michigan

Upper Arlington High School  
Columbus, Ohio  
High School Diploma

May 2022

### RELEVANT COURSEWORK

Windows System Administration  
Fall 2023- Winter 2024

Western Michigan University

- Learned how to manage many different kinds of servers through Active Directory.
- Learned the importance of networks and how to configure one through Virtual Machines.

### SKILLS AND ABILITIES

My strongest coding language is Python. However, I have studied many different languages as well as bash scripting. I am also experienced in server management using tools like Active Directory as well as Mosyle. I currently work a part time IT position at West Michigan Cancer Center where I am faced with solving technical issues on a daily basis.

### WORK EXPERIENCE

CAS Tech Services Student Technician  
August 2023-November 2024

Kalamazoo, Michigan

During my time as a Student Tech at the College of Arts and Sciences Tech Services I have learned a lot of relevant skills to my desired career. At this job I assist students and faculty with technical issues across campus. I have learned many things here for example being an administrator to a server, imaging computers, BIOS configuration, and many more useful skills. I plan to continue working this job throughout my education part time to further learn helpful skills from my peers.

West Michigan Cancer Center Help Desk Analyst  
November 2024-Present

Kalamazoo, Michigan

While working as a Help Desk Analyst I have further expanded my knowledge in Information technology which has helped continue my learning in Cybersecurity. I assist patients and fellow employees with a wide variety of technical issues needed to be resolved to keep the business operating at full efficiency. I get to use my previous skills and knowledge while collaborating with and learning from our team to solve daily issues within the company.

### ACTIVITIES/LEADERSHIP

I was selected and awarded the Leadership Scholarship by the College of Engineering and Applied Sciences at Western Michigan University. I have achieved dean's list status in five of my college semesters. I earned the rank of Eagle Scout during my junior year of High School, which taught me the values of leadership, teamwork, and community service. I strive to achieve my goals while also helping those around me complete their goals.
